OVERVIEW

In 2003, a VSC wide focus group met to examine graduate/placement survey practices at each of the Vermont State Colleges. Following that meeting, the VSC Career Services departments began an ongoing collaboration geared to collect comparable data in several key areas while continuing to maintain an individual and 'college specific' survey at each college. Here at Johnson State College, we have created a survey designed to gather information about graduates' employment, continuing education, and their assessment of the career preparation provided by JSC, our programs and extracurricular activities. The 2004 survey marks our second such survey and we are, again, pleased with the response rate. Our intention is to conduct a similar survey each fall and to make our findings available to the JSC community and beyond.

The following report provides:

- A summary of survey results
- A summary of results by academic department
- Graduates' job titles, employers and/or continuing education information by department
- A table of yearly statistics for 2003 and 2004
- The 2004 Graduate Placement Survey
